Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 3/19/2004 has been considered.

Drawings

3. Figures 1-2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the phrase "a backrest support with a backrest" is not clear, whether a backrest support is the same with a backrest.

Regarding claim 1, the phrase "said lever parallelogram comprising a seat support bar and substantially parallel thereto a parallelogram lever being pivotally connected with one end to the front portion of the wheel frame" is not clear, how is each part connected thereto and relation to each other.

Allowable Subject Matter

6. Claims 1-6 are would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

7. The following is an examiner's statement of reasons for allowance.

The prior art does not teach the raising wheelchair as recited in claim 1, which includes a raising frame. The raising frame being connected to a frontal portion of a wheel frame and comprising a seat support with a seat, a backrest support with a backrest, and on each side of the raising frame a lever parallelogram for maintaining the backrest vertical in a sitting position as well as in a standing position of a user. The backrest comprises

a column and a pipe section on each side of the backrest. The pipe section being connected to the backrest and telescopically movable on the column. The raising wheelchair also comprises a lever is pivotally connected to a rear position of the seat support and to the pipe section for moving, both on a change from the standing position and a change from a lying position to a sitting position, or vice versa, the backrest away from a rear end of the seat support, and toward the rear end of the seat support, respectively. This recitation, in combination with the rest of the recited elements, clearly defines over the prior art.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Rugg et al. disclose a reclining mechanism for wheelchairs and the like, Pillot discloses an elevator device for wheelchair, Smith discloses a wheelchair.
